

The immense sale, and unprecedented popularity, of the KATHAIRON having caused several unprincipled persons to put up and offer for sale base imitations and counterfeits of the original article, we are obliged to all purchasers against imposition by such counterfeits. In purchasing, always ask for LYON'S KATHAIRON, and do not be imposed upon by any other, under any pretext whatever. The unequalled merits of Lyon's KATHAIRON being so universally and triumphantly established, purchasers should be very careful about injuring their Hair by the use of any spurious article.

The laws of the different States are very severe against such imitations and counterfeits, generally making the crime a State's prison offence.

As counterfeits of Lyon's KATHAIRON all seem to emanate from the city of Philadelphia, we annex an extract from the laws of Pennsylvania, as a sample of the laws of the different States.

AN ACT TO PUNISH AND PREVENT FRAUDS IN THE USE OF FALSE STAMPS, LABELS, AND TRADE MARK

Passed by the Pennsylvania Legislature, at Session of 1854-5.

It makes it a misdemeanor to imitate or cause to be imitated another's goods, to be punished by imprisonment from three months to two years.

It makes it a misdemeanor for a person to have in his possession for use or sale any label, wrapper, die, etc., with which to imitate another's goods, to be punished in like manner as in section 1.

That hereafter any person who shall vend any goods, wares, or merchandise, having thereon any forged or counterfeit stamp or label, imitating, resembling, or purporting to be the stamp or label of any mechanic or manufacturer, knowing the same to be forged, and resembling or purporting to be imitations of the stamps or labels of such mechanic or manufacturer, without disclosing the fact to the purchaser thereof, shall, upon conviction, be deemed guilty of a misdemeanor, and shall be punished by imprisonment for the county jail, for a term not exceeding one year, and by a fine not less than fifty, nor more than five hundred dollars.

Attention of Dealers is called to the fact, that they implicate themselves with the counterfeiters, by selling any of the spurious articles.

hereby give notice, that all persons connected in any way in imitating or counterfeiting LYON'S KATHAIRON will be prosecuted with the utmost rigor of the law. We have already commenced a suit against one imitator, and will deal with all others in a similar way.

HEATH, WYNKOOP & Co., Proprietors.

LYON'S KATHAIRON, FOR PRESERVING, RESTORING, AND BEAUTIFYING THE HAIR.

And to Prevent its Falling Off and Turning Grey.

Awarded the Highest Premiums by the States of New York, Maryland, Michigan, and Georgia.

THE KATHAIRON most effectually cleanses the scalp from scurf and dandruff; causes the Hair to grow luxuriantly, giving it a rich, curling, and lively appearance; prevents the Hair from falling off and turning grey; and produces new Hair upon bald heads.

Like the other members of that wonderful piece of mechanism—the physical system of man—a correct knowledge of the offices of the Hair is not gained at a glance, or thoroughly understood, without duly considering its intimate connexion with the various influences which pervade the entire system. Its structure and organization would well repay a full and elaborate investigation. No part of the human system exhibits a more skilful mechanism, a more regular and perfect order, or a more wonderful combination of subtle and invisible matter.

No lovelier object of admiration exists, than the structure of mankind in its original unadorned state. The sculptor most capable of imitating the enchanting symmetry of female grace receives a nation's honor and a world's renown. The wisest philosophers of the world, not less than the illiterate of every age and nation, have themselves willing slaves to the potent power of beauty.

"The struggle o'er, love conquered pride,
And beauty won the soul to heaven denied."

soked at in the light of this fact, and when we consider the beauty bestowed, when

"Bounteous nature showered upon the head of man
His glorious tresses."

accountable seems the indifference of the masses in regard to the human Hair! how extraordinary the are bestowed upon it, when it can so easily be made an object of so great personal adornment. Baldness American peculiarity so often witnessed, that many candidly suppose it constitutional, hereditary, or a natural exhaustion of the powers of nature. Acknowledging the former of these causes to a certain extent, nothing can be more erroneous as a whole.

A lady wears her Hair thick, long, tightly dressed, continually parted in one place; a gentleman wears, too impervious and constant a covering upon his head, with Hair thick and long—both neglect a proper attention to cleansing the scalp from dandruff and other impurities, which necessarily must freely collect where they are so easily retained—and loss of Hair is the inevitable result.

A free use of the KATHAIRON will entirely obviate this difficulty, as its cleansing and purifying properties immediately remove all these impurities, and prevent any further accumulation, by keeping the head at all times perfectly clean. Too much stress cannot be laid on this frequent cleansing of the head. But, it may be asked, if all attention to the Hair has been disregarded, and it is already actually gone, how is it to be restored? Here it is that the peculiar virtues of the KATHAIRON are most strikingly exhibited. We are confident in saying, that in every case (except where the Hair is entirely dead, which is very seldom the case), a continued application of the KATHAIRON will inevitably restore the Hair to its former strength and vigor.

"DEAR SIR:—According to your directions, I have used Lyon's Kathairon some ten months, with the pleasing result of an entire new growth of hair. It is now nearly thirteen years since I lost my hair, during an attack of fever, since which time I have used alternately most of the numerous preparations recommended as restoratives, and until I commenced with the Kathairon, without benefit."

"Accept my regards, and believe me, yours truly, JAMES S. BIDWELL, Recorder of New York City."

Dr. Ingersoll, of Boston, after extolling the KATHAIRON above any preparation for the Hair ever made, says—

"I can at this time remember the names of ten persons whose Hair has been restored by its use; one after a baldness of ten or fifteen years. Although a stranger to you, I take pleasure in singling out an article of so great merit, and am happy to offer my testimony for a public benefit."

"Very respectfully yours, JAMES INGERSOLL, M.D., Inspecting Surgeon City Hospital."

Another gentleman says, after alluding particularly to the case of a lady whose Hair had been completely restored by the use of the KATHAIRON, and who had then recommended it to her friends:

"The result is, that within about a stone's throw in Seventh St., there are now at least one dozen persons that have a fine head of hair, who wore, or stood in need of, wigs a year ago."

A lady says she writes with "gratitude" that

"My Hair had been coming out for some time, and I was threatened with early baldness. I made use of everything to prevent it, but without any effect, until I used the Kathairon. My hair appeared to assume a softness and lively appearance from its first application, and ceased to come out at once. In one year's time it had gained in thickness all it ever lost, and is now lengthening rapidly."

"MRS. MARY L. KING, Brooklyn, L. I."

One gentleman remarks, after speaking at length about the KATHAIRON—

"It is a very agreeable reality, that the Kathairon has fully restored my Hair, after a baldness of twelve years."

"AMBERSE L. HAZARD, 124 Chambers street, New York."

Bennett, editor of the New York Herald, says, in concluding his note—

"Mrs. B. considers it the finest toilet article she ever used, and I can truly add my testimony to hers."

"Very truly yours, JAMES GORDON BENNETT."

"I should think the purchaser received the full equivalent for his money, and that this, with its very pleasing effect, would create a very truly yours, &c., GENE. WENFELD SCOTT."

"I have been further from the thousands of similar testimonials we have received, nor from the

very highly commendatory notices of the KATHAIRON given by the press throughout the country, but must refer

our full particulars to our "Treatise on the Hair," to be had gratuitously from dealers. Expressions like the

above are the inevitable result of the use of the KATHAIRON; wherever it is introduced, it at once takes the place

of all other preparations for the Hair. Parents cannot be too strongly urged to frequently apply the KATHAIRON

to the heads of their children, as they can by so doing lay the foundation for a luxuriant head of Hair, which

shall last throughout life. No mother should allow her child to grow up with thin, weak Hair, when by a

liberal use of the KATHAIRON it can so easily be made strong, thick, and healthy.

Grey Hair is effectually prevented by a free use of the KATHAIRON. It keeps the Hair healthy, through its

stimulating, nutritious effects, which reach the different rootings of the head, and incite activity in each; the

generating qualities of the Hair are invigorated, the numerous blood-vessels of the scalp kept in constant action,

the vesicular glands opened to a free state of absorption and evaporation. The KATHAIRON contains a most

thorough cleansing property, which at once removes scurf and dandruff, and at the same time causes a flow of

the lubricating juices of the head, which being taken up by the capillary tubes of the Hair, impart to it that soft,

lively appearance, so valuable as an ornament of beauty, or as an indication of health. It would be but

labor lost, however, to enumerate all the wonderful properties of the KATHAIRON. Its reputation is now world-

wide, and its million patrons have pronounced it to be the finest toilet article ever prepared. The large size of

the bottles—its delightful perfume—its pleasantness and perfect cleanliness—together with the low price at which

it is sold—have made it an indispensable article for the toilet. The KATHAIRON being free from all mineral or

offensive oleaginous properties, the complaint of staining bonnets, &c., so often made by the ladies, is entirely

obviated.

DIRECTIONS FOR USING LYON'S KATHAIRON.

Pour the Kathairon into the palm of the left hand, and with the fingers of the right, frequently saturated, rub the different sections of the head, until absorbed by the skin. Create a gentle friction with the hand or brush, to open the pores of the skin, which also opens the Hair. This should be repeated once in two days. In cases of entire baldness, the application should be made every day, and the head thoroughly washed with water twice a week. The course of reproduction is necessarily slow, and the above directions must be persevered in for some time. Ladies should be particular, and rub the Kathairon well in about the seams of the Hair.

Neglect in rubbing thoroughly and well the Kathairon when applied deprives it of half its power and efficacy. This should be remembered.

For Inflammation and Diseases of the Skin.

Wash the part with pure cold water once a day; when dry, rub on the Kathairon, for four or five minutes, twice a day; and in cases of inflammation or rheumatism bind on a cloth saturated with the Kathairon, and change frequently.

The KATHAIRON is sold by all respectable dealers throughout the United States, Canada, Mexico, Cuba, and both America.

HEATH, WYNKOOP & CO., Proprietors,

63 Liberty Street, New York City, U. S. of America.

E. THOMAS LYON, Chemist.

KATHAIRON DE LYON ESPECIALLY FOR CONSERVING, RESTAURING, Y EMBELLECE ET CABELLO, Y EVITAR LA CALVICIE Y LAS CANAS.

Ha merecido los mejores premios en los Estados de Nueva York, Maryland, Michigan, y Georgia.

El KATHAIRON limpia completamente la Cepa y Costra del cráneo; hace que el cabello crezca en abundancia dándole una apariencia bellísima por el rizo, la brillantez y la frescura; impide que se caiga el pelo, ó que salgan canas, y hace renacer el cabello á los calvos.

Seria trabajo perdido enumerar las maravillosas propiedades de esta admirable preparacion. Su fama, que se extiende por todo el mundo civilizado, hace inútil todo elogio, é imposible toda exageracion; y desde el tiempo de su descubrimiento, ningún sustituto ha podido pretender su indisputable superioridad.

La virtud de reproducir el cabello tiene sus límites, los cuales, no siempre son determinados por la vejez ni por predisposicion hereditaria, segun generalmente se cree, pues la calvicie se debe á causas que fácilmente se evitan. Observando fielmente las reglas para el uso del Kathairon. (Véase el "Tratado Fisiológico sobre el Cabello" por el autor, el cual se da gratis en todos los pачos del Kathairon.) La calva puede sobrevenir á consecuencia de abandono y mal tratamiento del pelo; pero, sin embargo, queda en las raíces la fuerza vital, que puede estimularse para hacerlo crecer nuevamente, despues de muchos años de inactividad, y aun cuando ya el individuo haya renunciado con desprecio á este adorno precioso de la naturaleza. Hay esperanza para todos. El siguiente certificado, por mas sorprendente que parezca, convencerá hasta á los mas incrédulos; y con todo, no es mas que uno de los numerosos casos son que se prueban las prodigiosas virtudes del Especifico.

"ESTIMADO SEÑOR:—He usado con arreglo á las instrucciones de Vd. el Kathairon por espacio de unos diez meses, y he obtenido el pelo de ellos el agradable resultado de verme con una completa cabellera nueva. Hace ahora cerca de 18 años que perdí todo el pelo á consecuencia de unas calenturas; así en todo ese tiempo casi todos los específicos que se recomendaban como restauradores del cabello, me de ninguno saqué provecho hasta que oí al Kathairon. Sirvase Vd. admitir las expresiones de mi respeto, &c."

"SANTIAGO S. BIDWELL, Notario de la ciudad de N. York."

Vd. Puede Vd. hacer uso de este cartel si lo desea V.—J. E. R."

Fenemos noticia de un caso ocurrido con un caballero que habia estado calvo por espacio de treinta y dos años, y que ahora se goza grandemente en dejar que sus nietos jueguen con los copiosos bucles de su cabellera. Por tanto, aseguramos, sin temor de que se nos desmentia, que el Kathairon de Lyon tiene la virtud de hacer renacer el cabello, siempre que quede en las raíces de él algun poder vital.

El gran tamaño de las botellas, el infimo precio á que se vendan, su delicioso perfume y bella apariencia, le recomiendan tanto á las Señoras cuanto á los caballeros, como un artículo indispensable de sus tocadores. No entrando en este especifico ningún ingrediente que tñia, no hay el inconveniente de que manche la piel, las gorras, ni ninguna otra parte del vestido ó adorno.

INSTRUCCIONES PARA USAR EL KATHAIRON DE LYON.

Derrámesse el Kathairon en la palma de mano izquierda y mojado en él los dedos de la derecha, frótese los diferentes pачos de la cabeza hasta que la piel haya absorbido el líquido. Dése luego una ligera fricción con la mano ó con una escobilla para abrir los poros de la piel, lo cual contribuye á enervar el cabello. Esta operacion deberá repetirse una vez cada dos dias. En caso de calvicie completa, debe hacerse la aplicacion todos los dias, y lavarse la cabeza con agua y jabón dos veces á la semana. La reproduccion del cabello es lenta por supuesto, y debe perseverarse sin desconfianza por algun tiempo. Las señoras deberán tener el cuidado especial de frotarse bien con el Kathairon entre todos los partidos del cabello.

Para las Inflamaciones y Enfermedades de la Piel.

Lávase la parte con agua limpia y fría una vez al dia; frótese luego con el Kathairon durante cinco ó cinco minutos, dos veces diariamente; y en caso de inflamacion ó rromatismo, aplíquese á la parte una lienzo empapado en el líquido, renovándosele con frecuencia.

El Kathairon se halla de venta en los despachos de los principales negociantes en la America del Norte y del Sur, en Europa, y en las Islas de ámbos Océanos.

HEATH, WYNKOOP, & CO., Proprietarios,

63 Liberty Street, Nueva York, Estados Unidos de America.

KATHAIRON DE LYON, POUR CONSERVER, REPARER, ET EMBELLIR LA CHEVELURE POUR L'EMPECHER DE TOMBER ET DE GRISSENER.

Obtention des premiers prix décernés par les Etats de New York, Maryland, Michigan, et Georgia.

Le KATHAIRON débarrassé très efficacement le crâne des gourmes et de la crasse—dispose la chevelure á une luxuriante croissance—en lui donnant une forme soyeuse, bouclée et luisante—empêche les cheveux de tomber et de grissonner, et fait repousser les cheveux sur les têtes chauves.

L'énumération des merveilleuses propriétés de cette admirable préparation serait une perte de travail. Sa réputation, qui s'est étendue avec la civilisation du globe, rend toute louange superflue—toute exagération impossible;—et, depuis l'époque de sa découverte, on n'a rien trouvé que puisse lui disputer sa supériorité incontestable. Les médecins, chirurgiens et chimistes de premier rang, des citoyens honorables de toutes les professions, les principaux journaux d'Amérique et d'Europe, les dames qui en font usage sur leurs tables de toilette, et les mères de famille qui l'emploient pour leurs enfants, en un mot, les millions de consommateurs en tous lieux, proclament unanimement que le Kathairon de Lyon est le meilleur et le plus agréable article, soit comme préparation médicale, soit comme préparation pour la toilette—que le monde ait jamais produit.

Le pouvoir de faire repousser les cheveux sur les têtes chauves á ses limites, qui ne sont pas toujours déterminées par la vieillesse ou par transmission héréditaire, comme on le suppose habituellement; mais il est possible de remonter aux causes de la calvitie et de la prévenir, en suivant les ordonnances que nécessite l'emploi du Kathairon. (Voyez le "Traité Physiologique sur la Chevelure" par l'auteur, lequel traité est délivré gratis par tous les marchands.) Par négligence ou traitement impropre, la tête peut se dépouiller entièrement, et cependant le principe vital réside encore dans les racines de la chevelure, qu'on peut pousser á une deuxième croissance, après de longues années d'inactivité, quand le malheureux affligé s'est soumis á se séparer á jamais du plus beau, du plus noble des ornements de la nature. Il y a de l'espoir pour tous. Le certificat suivant, si surprenant qu'il puisse paraître, convaincra le plus incrédule. Ce n'est que l'un des nombreux et fructueux effets du Kathairon.

"CHER MONSIEUR:—Suivant vos avis, j'ai fait usage de votre Kathairon pendant dix mois, ce qui m'a procuré pour résultat un entière recrudescence de la chevelure. Il y a 18 ans environ maintenant que je perdais mes cheveux durant une attaque de fièvre depuis ce temps j'ai fait usage alternativement de la plupart des nombreuses préparations recommandées en pareil cas, mais inutilement jusqu'au moment où je commençai l'emploi du Kathairon. Veuillez accepter mes respects, et croyez-moi votre tout dévoué."

"E. Thomas Lyon, Esq., 161 Broadway."

"JAMES S. BIDWELL, Recorder de la Ville de New York."

"P.S.—Vous pouvez vous servir de cette lettre comme il vous plaira."

Il est arrivé á notre connaissance l'exemple d'une personne qui avait été chauve pendant trente-deux années, et qui jouit maintenant apparemment d'un plaisir extrême, en laissant ses petits enfants jouer avec ses boucles luxuriantes. Nous certifions, en conséquence, sans crainte de la contradiction, que le Kathairon de Lyon fera toujours repousser une nouvelle chevelure sur les crânes chauves, ou il existe quelque vitalité á la racine des cheveux.

La grandeur du volume de la bouteille, la modicité du prix de sa vente, son délicieux parfum et l'élegance et son aspect, la recommandant aux dames et aux messieurs comme un compagnon constant de leurs tables de toilette. Comme la composition ne renferme aucune propriété colorante, elle a le mérite d'éviter les plaintes ordinaires, que soulèvent les autres compositions en bouillant l'épiderme, les chapeaux, les bonnets, les vêtements.

PRESCRIPTIONS POUR SE SERVIR DU KATHAIRON DE LYON.

Versez le Kathairon dans la paume de la main gauche, et avec les doigts de la main droite fréquemment saturés, frottez les différentes parties de la tête, jusqu'à ce que la peau ait absorbé le liquide. Faites une douce friction avec la main ou la brosse pour ouvrir les pores de la peau, ce qui adoucit, en même temps, la chevelure. Vous devrez répéter ce traitement de deux jours l'un. En cas de calvitie totale, les applications devront étre faites chaque jour, et la tête entièrement lavée avec du savon et de l'eau, deux fois par semaine. Le cours de la reproduction est nécessairement lent, et on doit suivre l'ordonnance pendant quelque temps. Les dames devront particulièrement se bien frictionner avec le Kathairon á la naissance des cheveux.

Pour les Inflammations et Affections de la PEAU.

Lavez la partie avec de l'eau pure et froide, une fois par jour, puis frottez la de Kathairon pendant quatre ou cinq minutes, deux fois par jour. En cas d'inflammation ou de rhumatisme, placez dessus un linge saturé du liquide et changez le fréquemment.

Le Kathairon se vend chez les principaux marchands de l'Amérique du Nord et du Sud, de l'Europe et des Iles de l'Éan.

HEATH, WYNKOOP, & CO., Proprietaires,

63 Liberty Street, New York, États-Unis d'Amérique.

E. THOMAS LYON, Chimiste.

Lyon's Kathairon.

Die höchsten Prämien der Staaten New-York, Maryland, Michigan und Georgia sind demselben gegeben worden.

Das Kathairon reinigt die Kopfhaut aufs Beste von Schorf und Grind, und verursacht einen luxuriösen Haarwuchs, indem es demselben zugleich ein reiches, lockiges und lebendiges Ansehen gibt. Es verhindert das Ausfallen und Grauewerden der Haare und bringt auf fallen Köpfen neues Haar hervor.

Es würde verlorene Arbeit sein, die zahlreichen guten Eigenschaften dieser bewundernswürthen Präparacion alle aufzuführen. Sein Ruf, so umfangreich wie die Civilisation der Erde, macht jedes Anbreifen überflüssig und jede Hebertreibung unmöglich; seit der Zeit seiner Erfindung ist kein Gegenstand gefunden worden, welcher seine Vorzüglichkeit bestreiten könnte. Millionen seiner Protectoren verkündigen überall „Lyon's Kathairon“ einstimmig.

Die Kraft, neues Haar auf fallen Stellen wieder hervorzubringen, hat seine Grenzen, doch werden diese nicht immer durch hohes Alter oder erblichen Fehler, wie man häufig vermuthet, bestimmt, sondern man kann die Ursachen des Haarwuchses leicht auffinden und vermeiden, wenn man die Gebrauchsanweisung des Kathairon befolgt. (Siehe „Physiological Treatise of the Hair,“ bei allen Verkäufern zu haben.) Durch Nachlässigkeit und schlechte Behandlung kann der Kopf ganz nackt werden und doch existirt noch immer eine Wurzel des Haares, welche zum zweiten Wachsthum veranlaßt werden kann, selbst nach langen Jahren der Unthätigkeit und nachdem der Unglückliche sich schon in den Verlust der schönsten Zierde der Natur wider Willen hat fügen müssen. Hier ist Hoffnung für Alle.

„Lyon's Kathairon“ wird immer neues Haar auf fallen Köpfen wieder hervorzubringen, wo noch ein Fünftel von Lebenskraft in den Wurzeln vorhanden ist. Die Größe der Flasche, der billige Preis, zu welchem sie verkauft wird, der herrliche Geruch und reinliches Ansehen empfehlen das Kathairon den Herren und Damen als unentbehrlich auf dem Toiletentisch.

Gebrauchsanweisungen von „Lyon's Kathairon.“

Gieße das Kathairon in die Föhling der linken Hand, benehe dann die Finger der rechten Hand damit und reibe so das Kathairon auf die fallen Stellen des Kopfes. Dann versuche man mit der Hand oder einer Bürste eine gelinde Friction, um die Poren der Haut zu erweitern. Dies sollte alle zwei Tage wiederholt werden. Wo die Stellen ganz ohne Haare sind, soll die Einreibung täglich geschehen und der Kopf jede Woche zweimal mit Wasser und Seife sorgfältig gewaschen werden. Der Wiedererzeugungsprozeß ist natürlich langsam und man muß deshalb einige Zeit dabei beharren. Damen müssen sorgsam sein, das Kathairon gut in die Haut einzureiben.

Für Inflammationen und Hautkrankheiten.

Wasche den kranken Theil mit kaltem Wasser einmal des Tages, und wenn er wieder trocken ist, reibe man das Kathairon zweimal am Tage vier oder fünf Minuten lang ein. Bei Rheumatismus und Inflammation, binde man ein Tuch um die kranken Theile und tränke dasselbe häufig mit Kathairon.

Das Kathairon wird durch Groß-Verkauf in Nord- und Süd-America, Europa und den Inseln des Ozeans vertrieben.

Heath, Wynkoop & Co., Eigenthümer, 63 Liberty Str., New-York.

LYON'S EXTRACT OF PURE JAMAICA GINGER. A CHOLERA SPECIFIC,

Effective Remedy for Dyspepsia, Colic, Cholera Morbus, Diarrhoea, Summer Complaints, Fever and Ague, Nervous Debility, Sick Headache, Sea Sickness, Dizziness, Weakness of the Stomach and Bowels, Cramp, Rheumatism, &c., &c.

The elements of nature, and the physical constitution of man, in their combined operations, are continually effecting changes in the human system, which with necessary exposures, and luxurious excesses, tend to exhaust ability and produce disease. They exist in different degrees of intensity, and if neglected or improperly treated, not unfrequently result in a fatal termination.

Since the organization of the allopathic system, wherever medical science has a reliable classification, GINGER, as a single ingredient, has been pronounced

THE MOST EFFECTIVE FAMILY MEDICINE

the world has ever produced. Nothing can be said to strengthen the confidence of medical men in regard to its great power. In its different states of preparation it has long been almost universally used as a prescription in their practice. The efficacy of Ginger is peculiarly tested as antispasmodic and carminative, in cold, flatulent colic, and in weakness of the stomach and bowels, in persons of torpid and phlegmatic constitutions.

Lyon's Essence, or Extract of Pure Jamaica Ginger.

resolves unequalled advantages, in being separated from all inert matter; is reduced to a concentrated form; and is much more effective, agreeable, and palatable. There exists no ambiguity in its operation, as it is entirely free from injurious tendencies, and can at all times be taken with great benefit, in a morbid or inactive state of the system—influencing a proper regularity, either from a relaxed or costive state.

The nervous system, as the vital seat of motive power, is liable to many derangements, through the excitement of body or mind, which the pure Ginger allays, by inciting action in the stomach, and creating a uniformity of perspiration throughout the entire system. Weakness of the Digestive Organs—predisposing to Dyspepsia, and causing Nausea and distress in the stomach after eating—immediately strengthened, and healthy action restored. Rheumatism and Gout are dissipated by its vital power, and all unhealthy secretions forced off through the pores of the skin, and by the vigorous activity of the internal functions.

Nothing has ever been found equal to this preparation of Ginger, in enabling the system to throw off and resist attacks of Summer Complaints, &c., which prevail with such fatality in particular localities, and during the decay of vegetable matter in warm weather. The digestive and respiratory organs operating in healthful activity, diseases of these kinds are dissipated of power. If not prevented in time, they often assume the shape of Cholera, Diarrhoea, &c. It is of great value as a preventive of Fever and Ague, &c.

In fact, Lyon's Pure Jamaica Ginger—mild and pleasant in its operation, but powerful and energetic in its effects—is an antidote so stimulating and reviving, so perfectly in harmony with the wants of the physical system, that it most speedily counteracts any derangement caused by a violation of the laws of health, is a remedy suited to the extremes of heat and cold, and at all times beneficial when gentle tonic and stimulating influences are required. While it strengthens the debilitated in the summer season, it is no less potent during the inclemency of winter, by warming and rendering the system impervious to disease.

The Ginger is particularly applicable to a warm latitude, where the system requires an extra amount of soluble sustenance. By diluting the extract in sweetened water, it forms a very delightful beverage, and counteracts the injurious tendencies of too much cold water. It is much used upon the Western rivers instead of brandy, where the water being brackish, stimulants are necessary to destroy its unpleasant taste. It forms a very delicious Syrup for Soda Water.

Lyon's Pure Ginger is a very superior article for culinary purposes, in flavoring Cakes, Jellies, Preserves, &c., and is also much used by confectioners. People travelling, or liable to change of diet and water, should always have a bottle of Lyon's Pure Jamaica Ginger with them.

DEAR SIR:—I speak from a general knowledge of the virtues of ginger, and particularly of your preparation of Pure Jamaica Ginger, having used it in my practice for three years. For dyspepsia, cholera, colic, summer complaint, fever and ague, nervous debility, general weakness, sick headache, &c., it is unquestionably the best article in the world. Its effect in enabling the system to resist diseases of all kinds, so usual during warm weather, should make it invaluable to every family. Its timely use would prevent nine-tenths of the contracted sickness during the summer season.

Yours truly, R. M. OHL, M.D., New York.

DEAR SIR:—I can most cheerfully recommend your preparation of Jamaica Ginger, as the only pure article of the kind I have used. The strong pungency of many preparations of this kind is obtained by compounds, which detracts very much from their value, by rendering them more irritating and unpleasant to the taste, and, in a measure, denuding the original power of the Ginger. I used your Pure Ginger in several cases of incipient cholera with entire success. On my recent trip to England I found it of great value for sea-sickness, and it became in great demand among my fellow passengers. Travellers by sea or land, changing diet and atmosphere, should always provide themselves with something of this kind; in fact I may say with your Pure Jamaica Ginger, for I believe there is nothing so handy or effective.

MR. E. THOMAS LYON.

DEAR SIR:—Please send me two bottles of your genuine Pure Jamaica Ginger. I have used your ginger for two seasons in my family, and I believe it has been the means of our entire good health. My children are all very fond of fruit, and have been very much indulged through the entire season, without a single attack of summer complaint, while there is much sickness among my neighbors, who have not used the Pure Ginger. It is held in very high estimation in our city.

Respectfully yours, MRS. CHARLES M. FROME, of Charleston, S. C.

TO PROFESSOR E. THOMAS LYON.
My room-mate was last night overtaken with the most violent attack of cholera morbus and diarrhoea I ever witnessed. We gave him nothing but your Pure Jamaica Ginger, and in two hours he was quiet. To-day he has been at the store.

Yours, &c., J. S. B., 114 Broadway.

As the value of such a preparation depends almost entirely on its purity, purchasers should always be particular and inquire for LYON'S EXTRACT OF PURE JAMAICA GINGER, which is manufactured from the finest Jamaica Ginger imported. Lyon's Extract of Pure Jamaica Ginger is sold by all the principal druggists throughout the world. Full directions for use accompany each bottle. To avoid imposition, see that the words "LYON'S ESSENCE OF PURE JAMAICA GINGER, NEW YORK," are blown on the bottles.

HEATH, WYNKOOP & Co., Proprietors,
63 Liberty Street, New York City, U. S. of America.

E. THOMAS LYON, Chemist.

EXTRAIT PUR DE GINGEMBRE DE LA JAMAÏQUE, DE LYON.

(Recommandé particulièrement aux Pharmaciens et aux médecins pour leurs préparations.)

C'est un véritable spécifique contre le Choléra, et le remède le plus efficace pour guérir la Dyspepsie, les Coliques, le Choléra-Morbus, les Affections d'Estomac, les Fièvres Simples et Intermittentes, les Faiblesses Nerveuses, le Mal de Mer, les Étourdissements, les Faiblesses d'Estomac et d'Entrailles, les Crampes, les Rhumatismes, &c.

Les éléments naturels de la constitution humaine, combinés avec les nécessités de ses besoins, et quelquefois les excès de l'usage, tendent à changer continuellement le système de notre organisation, et, en excitant nos facultés, produisent ainsi les maladies. Ces maladies possèdent différentes degrés d'intensité, et si elles sont réglées ou traitées d'une façon contraire à leur original, il en résulte très souvent une conclusion fatale.

Depuis l'introduction du système Allopathique dans la science médicale, le système qui a été introduit à la classification des traitements, les membres les plus distingués du corps médical ont émis l'opinion que le Gingembre était le seul ingrédient qui possédât la plus d'efficacité, et que c'était la

MEDICINE DE FAMILLE

la plus parfaite que l'on ait vue dans le monde. On ne peut s'empêcher de reconnaître l'opinion de ces hommes compétents sur la puissance de ce remède. A tous ces différents degrés de préparation, il a été depuis longtemps employé dans toutes les prescriptions de leurs ordonnances.

L'essence de Lyon, ou extrait pur du Gingembre de la Jamaïque, offre cet avantage inappréciable, qu'étant privé de toute matière inerte, il se trouve réduit dans une forme concentrée et produit des effets très salutaires, tout en étant fort agréable au goût.

Le système nerveux, siège de la puissance motrice, est sujet à des grands dérangements, soit par suite des impressions de l'esprit ou de l'excitement du corps, et ces dérangements disparaissent par l'usage du Gingembre pur, qui en produisant son action tonique sur l'estomac, crée une transpiration uniforme par toute l'organisation.

La faiblesse des organes digestifs qui prédispose à la dyspepsie, aux nausées, à la débilité de l'estomac après les repas, est immédiatement détruite et la santé rétablie par ce remède. Les Étourdissements et la goutte disparaissent par sa puissance vitale, et la vigueur active qu'il imprime aux fonctions internes force les sécrétions nuisibles à s'évaporer par des sueurs abondantes.

On n'a encore rien trouvé de comparable à cette préparation de Gingembre pour rendre le système capable de résister et de repousser les effets des influences à l'air, etc., qui dominent dans certaines localités. Les organes de la digestion et de la respiration fonctionnent avec une régularité parfaite, les maladies de l'estomac et du pectoral n'ont plus de pouvoir. Si elles n'étaient pas prévenues à temps, elles prendraient souvent le caractère pernicieux du choléra, de la diarrhée, &c.

En réalité, le Gingembre pur de la Jamaïque, de Lyon, doux et agréable dans son usage, est puissant, énergique dans ses effets; c'est un antidote stimulant et vivifiant—parfaitement en harmonie avec les exigences du système physique—il rétablit tous les dérangements causés par la non-observation des lois à suivre pour conserver la santé, et son action est bienfaisante toutes les fois que l'on a besoin de influences stimulantes. Tout en renforçant la débilité dans la saison d'hiver, il n'en est pas moins puissant sous le ciel inclement de l'hiver, en rechauffant le système et en le rendant propre à éviter les maladies.

Le Gingembre est particulièrement applicable aux chaudes latitudes. En mêlant cet extrait avec de l'eau sucrée, il forme un breuvage délicieux et fait éviter les suites souvent fâcheuses produites par le trop de froid. C'est un délicieux sirop pour la Soda Water.

Le Gingembre pur de Lyon est un article supérieur pour les préparations culinaires, pour faire des gâteaux, des gélées, des conferves, &c., et il est très en usage parmi les confiseurs. Les personnes qui voyagent et qui sont exposées à changer de régime et de boissons, doivent toujours être pourvues d'une bouteille de Gingembre pur de la Jamaïque, de Lyon.

HÔPITAL DE LA VILLE DE NEW YORK, 20 JUILLET, 1851.

MR. E. THOMAS LYON:

MON CHER MONSIEUR:—Je recommande avec beaucoup d'insistance votre préparation de Gingembre de la Jamaïque, comme le seul article pur de cette espèce qui ait été offert au public. La force active de la plupart des remèdes de ce genre n'est obtenue que par des compositions qui détériorent leur valeur réelle, en les rendant plus irritants et leur donnant un mauvais goût, et en détruisant, pour ainsi dire, le pouvoir original du Gingembre. J'ai employé votre Gingembre pur avec un plein succès dans des cas de principes de choléra. Dans mon dernier voyage en Angleterre, je l'ai trouvé très efficace pour le mal de mer, et mes compagnons de route ne se faisaient pas faute d'en demander. Les voyageurs sur terre ou sur mer, les personnes sujettes à changer de régime et d'aliments, doivent toujours être pourvues de préparations de cette espèce; en un mot, je vous dirai que votre Extrait Pur de Gingembre de la Jamaïque est une chose que je ne crois pas être surpassée en efficacité positive.

Je suis avec respect, etc. D. P. KNIGHT, M. D.

Le Gingembre pur de la Jamaïque, de Lyon, se trouve chez tous les pharmaciens et droguistes du monde.

EXTRACTO DE AGENGIBRE PURO DE JAMAICA, DE LYON.

(Muy particularmente recomendado a los Médicos y a los Boticarios para usarlo en composiciones.)

Es un específico contra el Cólera, y eficazísimo reme para la Dispepsia o achagues del estómago, Colico, Cólera-morbo, Calenturas de frío y terciales, Debilidad de los Nervios, Jaquica, Mareo, Vértigo, Debilidad del Estómago y de los Intestinos, Calambres, Rumatismo, &c., &c.

Los elementos naturales y la constitucion fisica del hombre, combinados con los efectos de la necesaria exposicion a la intemperie y de los excesos de una vida casual, producen continuos cambios en nuestro sistema, los cuales tienden a descomponer las fuerzas y enjendrar enfermedades. Esas causas existen con diferentes grados de intensidad, y si se las abandona, ó no se remedian con acierto, terminan amenudo fatalmente.

Desde que se organizó el sistema Allopatico, en todas partes donde las ciencias medicas han llegado a un verdadero estado de adelanto, se ha considerado siempre que el Agengibre, como un simple ingrediente, es un excelente

MEDICAMENTO DE FAMILIA

y mas eficaz que todos los conocidos hasta el día. Nada hay que deca para corroborar la confianza que los médicos tienen en las grandes virtudes de esta medicina, que hace largos años se recetan en la práctica diaria, en sus diferentes modos de preparación.

LA ESSENCE O EXTRACTO DE AGENGIBRE PURO DE JAMAÏCA, DE LYON, presenta las mayores ventajas, porque, separado de toda materia inerte, queda reducido a una forma concentrada, y es al mismo tiempo eficaz y agradable al paladar.

El sistema nervioso, como asiento vital del poder motor, está sujeto a varios accidentes, efecto de excitaciones físicas ó morales que el Agengibre calma llamando la atencion al estómago y creando una transpiracion uniforme en todo el sistema.

La debilidad de los órganos digestivos, que predispone a la indigestion, náuseas y mal de estómago en general, despues de comer, se remedia inmediatamente y se restaura la accion saludable. Su poder vital disipa el Reumatismo y la Gota; y a virtud de su vigorosa actividad interna, se arrojan por los poros de la piel todas las secreciones nocivas.

Nada hay que iguale a esta preparacion del Agengibre en cuanto a la bastante fuerza al sistema para resistir y sacudir ataques del tiempo de calor, &c., que prevalecen y anulan terminaran tan facilmente en ciertas localidades. Operando con salubridad actividad en los órganos digestivos y respiratorios, todas las enfermedades de esta especie quedan completamente desarmadas; pero si no se le ataca en tiempo, su efecto es amenuo degeneran en Cólera, Diarrea, &c.

El AGENGIBRE PURO DE LYON, suave y agradable en su modo de operar, pero enérgico y poderoso en sus efectos, es un antidoto tan estimulante y vivificador, tan perfectamente en armonia con las necesidades del sistema fisico, que al punto arregla cualquier trastorno producido por la violacion de las leyes de la salud, y es un remedio apropiado cuando quiera que se necesita usar de un tónico suave y de una influencia estimulante. Al paso que en el verano fortalece a los que se hallan en estado de debilidad, no es menos poderoso durante los rigores del invierno, porque da al sistema el grado de calor conveniente, y le pone a cubierto de las enfermedades estacionales.

El Agengibre se adapta particularmente a los climas calientes. Dinyéndose el Extracto en agua con azucar forma una bebida deliciosa, y neutraliza los nocivos efectos del agua demasiado fria. Es tambien un sirope delicioso para el Agua de Soda.

El AGENGIBRE PURO DE LYON es un ingrediente superior para la Crema y los Confites, porque da un sabor exquisito a las conservas, jaleas, bizcochos, &c. Los individuos que viajan, ó se ven obligados a cambiar de aguas ó alimentos, deberían llevar siempre consigo una botella de este precioso específico.

CERTIFICADO.

HOSPITAL DE LA CIUDAD DE NUEVA YORK, 7 de 40 de 1851.

SE. DON E. THOMAS LYON:

MUY SEÑOR: Tengo el mayor gusto en recomendar su preparacion del Agengibre de Jamaica, como el único artículo puro de esta clase, entre los presentados al público. El fuerte sabor picante de muchas preparaciones de esta especie se debe a que las hacen por medio de compuestos, lo cual le quita mucha parte de su virtud primitiva, pues lo hace mas irritante y desagradable al paladar neutralizando hasta cierto punto su eficacia. Yo he usado el Extracto de Vd. con éxito muy feliz en varios casos de Cólera. Es mi último viaje a Inglaterra me convenci de que es utilísimo paracar el mareo, y subo gran pedido de el entre mis compañeros de pasaje. Los que viajan por mar ó tierra, ó que tengan que cambiar de alimentos ó de temperamento, deberían siempre provistos de un medicamento de esta especie; y al fin, deo decir de su Extracto Puro de Agengibre de Jamaica, que no creo que haya ninguna otra preparacion tan comoda ni tan eficaz.

De Vd. respetuosamente

D. P. KNIGHT, Doctor en Medicina.

El Extracto de Agengibre Puro de Jamaica, de Lyon, se halla de venta en todas las Boticas del mundo.

WYNKOOP'S FEVER AND AGUE EXTERMINATOR.

Thousands have testified during the past ten years to the superiority of this Medicine over all other Fever and Ague remedies. It invariably cures the disease if the directions are followed. The following is a sample of the multitude of similar testimonials we have received:

"UNION, N. Y., July 6, 1855.

Messrs. HEATH, WYNKOOP & Co.

Gentlemen,—Through motives of humanity I am induced to pen a few lines. Having been afflicted some four years since with that much to be dreaded disease, Fever and Ague, I was under treatment with one of our most celebrated physicians, but to no purpose. I tried various kinds of medicines without any beneficial effect, and with an almost broken down constitution, and wearied at the name of anything called a cure, I gave up, thinking I would try nothing more. But on being persuaded by a friend, I was induced to give you Extreminator a trial. I commenced, and before I had taken half a bottle, the disease was almost exterminated. I continued until I had taken the second bottle—since which time I have had no symptom of the disease whatever. I do most earnestly recommend all similarly afflicted not to delay a moment, but go forthwith and procure the infallible remedy.

Yours truly,

W. B. MONROE,

Overseer of the Poor.

Another gentleman says—after speaking of its curing him of a very severe attack of Fever and Ague—

"Since that time I have used your valuable Medicine, to speak within bounds, in more than 150 cases, with the same sure result, and I can safely say it never fails—and hundreds with whom I am acquainted can certify to the same results."

The Postmaster of Camptown, N. J., says—

"Its success in eradicating Fever and Ague exceeds every thing I have ever seen or heard of."

Dr. Fleming, of Newark, N. J., says—

"In every case, as far as I know, where I have prescribed it for Fever and Ague, it has been successful."

But we have not space to quote further. For full particulars see our "Treatise on Fever and Ague," which accompanies each bottle. Sold by all respectable dealers.

HEATH, WYNKOOP & Co., Proprietors,

63 Liberty Street, New York.

WYNKOOP'S ICELAND PECTORAL, A most speedy and certain cure for Incipient Consumption,

Coughs, Colds, Asthma, Pain in the Chest or Side, Spitting of Blood, Catarrh, Pleurisy, Hectic Fever, Night Sweats, Difficulty in Breathing, Palpitation of the Heart, Loss of Strength, Emaciation, and all affections of the Chest and Lungs, together with those diseases which predispose to Consumption.

Nothing more need be said to convince all of its efficacy, than that it is composed of such ingredients as Iceland Moss, Balm Gilead, Elecampane, Comfrey, Peruvian Balsam, Balsam Tolu, &c., &c.

Its immediate effect is to allay all irritation and gently remove the phlegm and other morbid secretions from the throat and air-passages, thus relieving the cough at once, by subduing the inflammation and other causes which give rise to it. Soothing in its tendencies, it quiets the nervous system, gives buoyancy to such as are subject to depression of spirits, and invigorates the whole body.

The low price at which it is sold places it within the reach of all, while one trial will convince the most skeptical of its superiority over all other remedies of its nature.

Price only 25 cents per bottle

Sold by all respectable dealers.

HEATH, WYNKOOP & Co.

ARE MANUFACTURERS, ALSO, OF

Extracts for the Handkerchief,

HAIR OILS,

FANCY OILS,

Perfumes,

AND PERFUMERY IN GENERAL.

SHAKESPEARE has caused one of his characters, who was lamenting the departure of summer with its sweet perfumes, to console himself with the thought, that through the aid of skilful perfumers, the essence of summer, as it were—its delightful odors, had been retained. He says:

"Were not Summer's distillations left,
A liquid prisoner, pent in walls of glass,
Beauty's effect with beauty were bereft,
Nor it, nor no remembrance what it was;
But flowers distilled, though they with winter meet,
Lose but their show—their substance still lives sweet."

We are sure that we need say nothing to the ladies in regard to the use of "Extracts for the Handkerchief," for the use of these "summer's distillations" is universal. We have only to inform them that those prepared by us are put up in finer style than those of any other manufacturers, either in this country or Europe, and as to quality are unexcelled, having that delightful "flowery" odor so highly prized by all.

Obtaining all the materials used by us directly from the flower fields of Europe, Asia, and Africa, and using none but the finest and most costly of their several kinds, we are enabled to prepare perfumes that are unequalled in richness and pleasantness.

Our Extracts are put up in larger bottles than are used by any other manufacturers, and each box is embellished with a beautiful colored engraving, making them the most beautiful articles of the kind ever offered to the public.

The following are among the varieties we now manufacture, and which can be supplied to Dealers in any quantity, to meet the wants of their customers:

AMBER,

BOUQUET DE CAROLINE,

BERGAMOTTE,

CHRONELLA,

CASSIE,

FLEUR D'ORANGE,

HELIOTROPE,

HONEYSCUELE,

JOCKEY CLUB,

JONQUIL,

JASMINE,
